

DOMAIN CYMBALS

"Cymbals For The Elite Drummer"

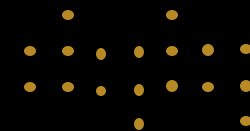

Who We Are

Domain Cymbals was established with industry innovation in mind. We set our focus on ensuring that our brand is supreme in craftsmanship, durability, playability and affordability. We offer a full line of professional-grade cymbals for drummers of all genres. Our family-oriented customer service is the foundation of our company which enables us to build success one customer at a time. We look forward to working with you, our VIPs.

Offices: United States

S1 Hammered

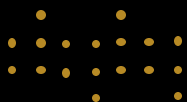

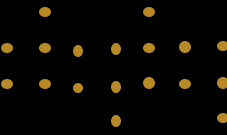

Unlock unmatched power and character with the S1 Hammered Pack. Crafted for dynamic performance and tonal versatility, this premium set delivers rich, articulate sounds that cut through any mix. Whether on stage or in the studio, the S1 Hammered series is designed to elevate your playing experience with precision and style.

J-Hop

The J-Hop Series delivers a unique, dry and focused sound that add rich character to any cymbal setup. Designed in collaboration with Jamale Hopkins, these cymbals offer precision and articulation with a controlled sustain.

Saturn

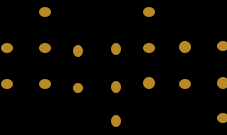

The Saturn series is part of our brilliant line of cymbals with a raw top with light lathing and superb polish. This series provide the crushing tones needed for gospel, rock, grunge, hip-hop and many more. Pure attack with perfect sustain.

H-Traditional

The H-Traditional brings that classic full pure cymbals tones with an added flare with the heavy hammering all around the cymbal from the bottom side. This type of hammering helps to add a clean, but trashy texture to this line.

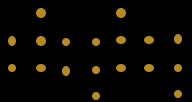

DH-Traditional

The DH-Traditional brings that same classic full pure cymbal tones with even more character with the quarter sized deep hammering all around the cymbal from the top side. The sound is one that will keep you coming back for more.

R-Class

The R-Class series is designed for versatility. This line can be classified as our Jazz line which has a dry, un-lathed top, but has a lathed brilliant bottom to give a smooth balanced tone. The wash of this line allows for the cymbal to get in and out of the way by adding great dynamics to any musical situation.

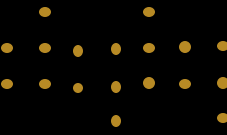

X-Class

The X-Class series brings a twist to the dual hybrid cymbal family. Our X-Class series bell and bow are traditional while the edge is brilliant. We define the X-Class as one of our full tone series.

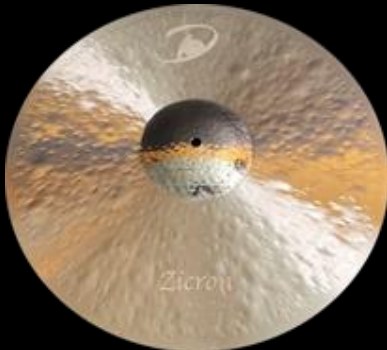

X2

The X2 series is the close relative of the X-Class series. What makes the X2 series unique is its traditional bell and edge with the brilliant finish on the bow. The series consists of only crashes and hi-hats. The hi-hats are crisp and clean along with the crashes that are full of body, resonance and tone.

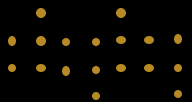

H-Monetic

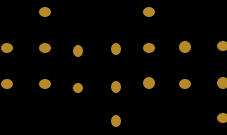

The H-Monetic series combines the beautiful brilliant finish from the bell thru the bow with a pure raw edge. This cymbal delivers warm, explosive tones with short sustain. Gets in and out of the way.

Zicron

Zicron is one of our power series with master crafted hammering, a semi-brilliant finish from the bow to the edge and a brilliant finished bell. These cymbals are explosive with full warm tones and tasteful sustain.

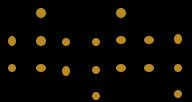

Hydro

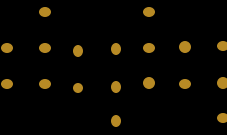

The Hydro Series is an amazing addition to the Domain Cymbal line up. This series is raw from the bell through the bow with heavy quarter sized hammering on the brilliant finished edge of the cymbal. The bottom of the cymbal is a raw dry finish. This series is sure to turn heads at each and every show.

Galaxy-Fx

The Galaxy-Fx series is made from our brilliant series with superb lathing and classic hammering. This series provides the crushing tones needed for gospel, rock, grunge, hip-hop and many more. Pure attack with perfect sustain.

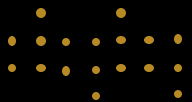

Sting-Fx

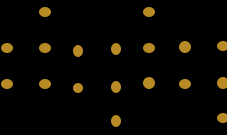

The Sting-Fx Series is all in the name. These effects cymbals bring fire to any musical scenario. Whether used as a stand alone or in a stack combination, the Sting-Fx series are like the icing on the cake when it comes to cymbal set ups.

Zone-Fx

Zone-Fx series is the spark that's needed for all cymbal setups which cuts through aggressively. If you are looking for a great addition to your sound, look no further.

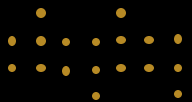

Flex-Fx

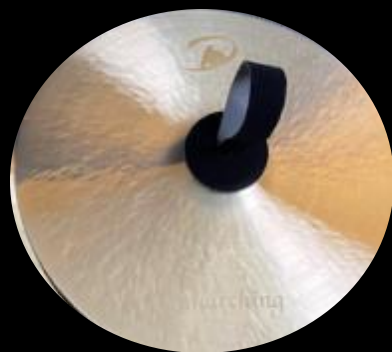

The Flex-Fx is the foundation of our dry effects lines with its dark raw finish. This effects cymbal captures the quick in and out wash that is becoming an industry standard.

Suspended

Our Suspended cymbals bring the full body of warm tones that is to be expected in the concert band arena. We have a classic sand traditional finish with light hammering to add a little flare.

Marching

Our Marching cymbals have been designed to bring a fresh feel to drum lines across the globe. Light weight, easy to handle and a full crisp sound that's true to the Domain brand. Clean sand traditional finish with light hammering.

Elegant Packaging

Our Cymbals come with elegant packaging so that you have the most premium and elite experience.
